Sazerac Company Overview

Build your career at Sazerac! With almost 400 years of rich history, Sazerac Company has thrived as an independent, American family-owned company with operations in the United States and around the world. Since the 2000s, Sazerac has averaged double digit growth every year! Sazerac Company produces and markets the most award-winning bourbons and whiskeys in the world, including Buffalo Trace, Pappy Van Winkle, Eagle Rare, Blanton's, and Sazerac Rye. Additionally, Sazerac owns many popular brands across a range of spirits, including Fireball, Southern Comfort, Seagram's V.O., Myers's, Goldschlager, Parrot Bay, 99 Brand, and Platinum Vodka.

We're proud of our award-winning culture and distilleries. Our Louisville office has been named one of the "Best Places to Work in Kentucky" four times, and our Buffalo Trace Distillery has earned the title of "world's most award-winning distillery" through the dedication of our craftsmen for well over 200 years. Whether you're a recent graduate or an experienced professional, Sazerac provides extraordinary opportunities for growth with competitive salaries and benefits in an exciting, entrepreneurial industry.

Company/Location Overview

Boston Brands of Maine, located in Lewiston, Maine, is part of the Sazerac family of companies. Boston Brands of Maine operates a state-of-the-art facility on ten acres, with the capacity of seven bottling lines. Sazerac's vision is to become one of the industry's most desired places to be. Sazerac attributes its success to a unique blend of history, culture, brands, relationships, innovation, technology, and most importantly, its people.

Job Description/Responsibilities

Bio: Responsible for the operation of the bottle filler and capper, decasing process, and/or case packing operation. The Bottling Technician will be required to safely operate the equipment, troubleshoot problems, changeover equipment, preform quality checks, and basic maintenance tasks. The Bottling Technician will also give guidance on safety, quality, and operations to temporary employees who will be assisting in the area.

Understand and comply with safety requirements of work area and keep safety top of mind at all times during general operation, maintenance, changing parts and setup of equipment; prevent co-workers from working unsafely. Report safety concerns, accidents and near misses immediately and submit safety work orders as needed. Be an active participant in plant Behavior Based safety program and in facility wide safety inspections/ accident investigations. Keep workplace clean and free of debris at all times.

Understand and work with established standards to deliver the highest and most consistent levels of excellent customer service, by ensuring Bottling Department meets daily production goals while adhering to safety, quality, and regulatory guidelines. Reference resources (WI's and SOP's) uphold safety, quality, and food safety standards. Bottling Technician will be required to perform equipment changeover to help maintain production schedule.

Ensure adherence to all Personal Safety, Food Safety, Quality and Environmental Policies and Practices. Own the Standard Operating Procedure for the bottling line positions and perform in accordance with standards. Continuously seek ways to improve performance and improve quality driven actions that lead to the award winning results. Actively engage in keeping work area and facility maintained at the established standards. Ensure maximum customer satisfaction, by assuring quality finished product and internal customer service. Incorporate daily maintenance tasks such as inspection, lubrication, and equipment setup into daily routine.

Continually seek ways to improve performance as measured by departmental Key Performance Indicators. Understand and adhere to all SOPs and best practices to ensure maximum quality standards for bottling lines and customer service. Proactively generate ideas to improve daily operation of Boston Brands of Maine bottling processes. Optimize available resources to continuously improve quality inspections, labeling and general machine operation. Effectively communicate interdepartmentally; Meet financial objectives by controlling cost and waste without sacrificing quality of products.

Perform assigned duties of bottling technician including all tasks related to the bottling line which includes but not limited to; case feeding, quality inspection, case packing and labeling. Perform all tasks in a responsible manner and in compliance with Company policies and procedures as well as applicable regulatory requirements. Fully and accurately complete all applicable documentation, including full record... For full info follow application link.
