About Woodfords Family Services:

Woodfords Family Services has been committed to the support and inclusion of people with special needs and their families since 1967. For over 50 years, our agency has been Maine's leader in the provision of services for individuals and their families with autism, developmental and intellectual disabilities.

"I am a Behavioral Health Professional (BHP) at Woodfords, and I love being able to work in the school system as well as provide services in-home. As an aspiring Board Certified Behavior Analyst (BCBA), this is a great way to gain experience working with consumers in various settings. One of my favorite parts of working as a BHP is establishing connections and building relationships with my consumers and their families. I have learned how important it is to have positive relationships in order to effectively do my job and provide support to my consumers.

Since day one as a BHP at Woodfords, I have had nothing but positive interactions with my co-workers. I have always admired how supportive all of my supervisors are. They always find a

way to show staff that their hard work is appreciated, and always incorporate ways to make the work environment fun." â€” Caitlyn, BHP
