

Steel-Pro is Looking For:

A Fabricator, responsible for the success of a specific project from start to finish. The majority of projects

at Steel-Pro Inc are ASME Code Stamped pressure vessels. You will be required to follow all Steel-Pro

generated drawing packages as well as customer supplied drawing packages all while following the

Steel-Pro Quality Management System. The end result of your work will be a high quality fabrication that

meets project drawings, specifications, and maintains project budget. This fabricator will report directly

to the Shop Foreman for project allocation and direction.

Steel-Pro Culture:

Steel-Pro is the Northeast's foremost manufacturer of custom stainless steel tanks and ASME pressure

vessels. As a 100% employee-owned business, our culture is heavily invested in the professional and

personal success of all our employee-owners. As an employee-owner, you can make a difference

through your work and have a direct impact on the company's goal to serve our customers, continue to

grow a successful business, and provide you with a rewarding career and the room for a fun and meaningful personal life.

We offer a great benefits package and a fast paced, dynamic work environment. We would love for you

to join our team and become an employee-owner!

Our Goal and How We Achieve It:

Our goal at Steel-Pro is to design and fabricate the highest quality custom equipment at the best value

and delivery for our customers and to provide a safe work environment for our employee-owners and

visitors alike. We rely on each individual employee-owner to contribute to reaching this goal by bringing

a unique skill set to work each day and to adhere to our core values:

— Provide a safe environment for employees and visitors.

— Value the importance of fairness, honesty, integrity, respect and accountability for our actions and decisions.

— Continuously improve in all aspects of our business.

— Value teamwork and employee's commitment to Steel-Pro.

— Consider our customers and suppliers valued "business partners" and act accordingly.

What We Offer You:

— A fulfilling career with many avenues for success.

— A competitive salary.

— A comprehensive benefits package.

— A dollar for dollar 401(k) match up to 4%.

— Added employee-ownership retirement benefit.

— Profit Sharing.

How You Can Help:

— Maintain a safe work environment by meeting and exceeding all OSHA and Steel-Pro specific, safety policies.

— Understand and read shop fabrication drawings and be able to successfully layout, fit-up, and form material according to prints.

— Ability to read and interpret fabrication tools including tape measure, level, angle finder,

micrometer, and similar tools.

— Intermediate to advanced math skills including, but not limited to, trigonometry, decimals, and fractions.

— Successfully use the many fabrication tools available at the Steel-Pro facility, including plate shear, press brake, plate rolls, and oxy fuel/plasma torches.

— Must have the ability to weld and ability to pass ASME Section IX welding tests

— Collaborate with project managers, QC manager, production manager, and engineering manager to fabricate pressure vessels that will satisfy the customer's needs and expectations

— Ability and drive to meet or exceed project budget by effectively managing fabrication portion of project to be delivered on time, and under hours.

— Ability to work on multiple projects at one time in order to efficiently provide tasks for welders.

— Maintain "As Built" drawings of projects to be finalized by Quality Control and included in the turnover package to customer.

What Makes You Qualified:

— Prior fabrication and/or welding experience

— Great attention to detail.

— Problem Solving Skills

— Ability to work individually and as part of a team.

— An ability to communicate effectively with co-workers and customers alike
