Business Unit:

LPG

Job Description:

We are open to this position being based at any of our CDM Smith offices located in the United States and partial remote schedules.

As an Architect at Louis Perry Group, a CDM Smith company, you will have the opportunity to be a part of a collaborative multidisciplinary team of technical experts working on challenging projects for industrial facilities (chemical, oil and gas, rubber and plastics, etc.), office space design, facility planning and condition assessment work. Partial remote work will be considered for this position.

Primary Duties and Responsibilities

• Attending Planning Commission, Architectural Review Board, and Zoning Commission Meetings.

• Developing a written program with Client, in collaboration with the Engineering Managers / Supervisors.

• Researching and selecting basic materials, and developing basic exterior walls, sections, and critical details.

• Providing accurate, on-schedule Architectural and design services.

• Developing technical solutions of assigned projects; including field observations and evaluations, researching and collecting data to be utilized in developing technical solutions.

• Completing assignments within time frame allocated without sacrificing the integrity of the end results.

• Ensuring all departmental work is completed with accuracy and thoroughness.

• Mentoring and responding to technical questions by Drafters, Designers and Architects I, II and III.

• Obtaining information from historical records, previous projects, etc. to be utilized in analysis of specific project tasks.

• Preparing departmental task hour estimates for projects.

• Coordinating the staffing efforts or subconsultant efforts required on a project. (Subject to President's review.)
