

**Job Title: Electrician & Solar Installer (hiring at all levels)**

Electricians make up the core installation and service team responsible for the highest quality installation of solar electric (PV) and other complimentary systems for our clients. This position includes, but is not limited to, working with our solar/electric installation teams in both residential and commercial settings. Work includes loading/unloading equipment, staging and ladder work, using hand tools and carrying equipment on rooftops, installing conduit, wiring, and monitoring systems. We look for candidates who are interested in technical learning and offer opportunities for professional development.

**Role and Responsibilities (include but not limited to):**

- Assist the Lead Installer/Project Manager with quality solar & electric installations
- Install and repair wiring, systems and hardware for residential and commercial buildings
- Assist with project loading to ensure all necessary materials and tools arrive on the job site
- Assist with overall crew and job site safety
- Help maintain tools and trucks in excellent condition
- Assist with general site preparation and clean up

**Critical Skills/Expectations:**

- Must have valid driver's license
- Must have excellent customer service skills
- Effectively coordinate and communicate with fellow crew members
- Must be able to comfortably lift 40 lbs, climb ladders, work on roofs and in crawl spaces in varying hot and cold temperatures.
- Familiarity with hand tools and basic construction techniques.
- Teamwork – able to establish collaborative working relationships with peers and supervisors.
- Code of Conduct – act accordingly as a guest at our customers sites.
- Strong desire to work for a renewable energy company, and interest in developing professionally.

**Preferred Licenses or Additional Qualifications:**

- Electrical experience preferred (in-house training also available)

Shift: 6 AM – 4 PM Monday through Thursday, paid holidays

Pay: Hourly rate dependent on experience level, PTO and 401(k) contributions after 6 months of service
